

The Primary PE and sport premium

Planning, reporting and evaluating website tool

Updated September 2023

Commissioned by

Department for Education

Created by

This template can be used for multiple purposes:

 It enables schools to effectively plan their use of the Primary PE and sport premium

 It helps schools to meet the requirements (as set out in guidance) to publish information on their Primary PE and sport premium

 It will be an effective document to support Ofsted inspections enabling schools to evidence progress in Physical Education (PE) and evidence swimming attainment, which forms part of the PE National Curriculum. We would recommend schools consider the Intent, Implementation and Impact of any spend, as examined within the Education Inspection Framework.

It is important that your grant is used effectively and based on school need.

Schools must use the funding to make additional and sustainable improvements to the quality of the PE, School Sport and Physical Activity (PESSPA) they offer. This means that you should use

they offer. This means that you should use the Primary PE and sport premium to:

- Build capacity and capability within the school to ensure that improvements made now will benefit pupils joining the school in future years
- Develop or add to the PESSPA activities that your school already offers.

The Primary PE and sport premium should not be used to fund capital spend projects; the school's core budget should fund these. Further detail on capital expenditure can be found in the updated Primary PE and sport premium guidance.

necessary that spending has to meet all the key priorities, you should select the priorities that you aim to use any funding towards.

Although completing this template is not a requirement for schools, schools are required to publish details of how they spend this funding. Schools must also outline what the impact this funding has had on pupils' PE and sport participation and attainment and how any spending will be sustainable in the future. **All funding must be spent by 31st July 2024.**

The Department for Education has worked closely with the Association for Physical Education (afPE) and the Youth Sport Trust (YST) to develop this template and encourages schools to use it. This template is an effective way of meeting the reporting requirements of the Primary PE and sport premium.

Key achievements 2023-2024

This template will be completed at the end of the academic year and will showcase the key achievements schools have made with their Primary PE and sport premium spending.

Activity/Action	Impact	Comments
Consistent Whole School Approach to Teaching PE	Participation:	Sustainability:
	Time for leadership to address the curriculum and ensure that it is being implemented correctly. This time was used to ensure the curriculum is being embedded as planned. Attainment: From lesson observations it is clear the time spent in previous years designing curriculum has been effective, it is now about perfecting the implementation of this. Whole School Improvement: By increasing the quality of PE across the school, the children will receive a higher quality of PE education.	This will ensure the subject is coordinated in a sustainable way and that all choices made will benefit the school and children. Next Steps: Continue to spend time out of class and ensure that this time is used to monitor implementation of PE across the school. In particular supporting ECT's as they begin their teaching career.
Continuation of Delivering Real PE Jasmine Scheme to support the delivery	Participation:	Sustainability:

the school year working with teachers to upskill staff and ensure they are confident to deliver high quality PE. Teachers to become more confident in delivering a range of sports and activities through working with professionals. External professionals have worked with a focus on those children who are not achieving the age related expectations in PE. Curriculum delivery 25,708	Participation: All children will receive specialist coaching. From this children will be able to experience new sports. The focus has been on those children who are not achieving the age related expectations in PE. Attainment: Children will continue to make good progress and become better all round athletes by performing in a number of different sports. This is a long term investment in children who are behind in PE. The attainment will be impacted in the coming year. Whole school improvement: Teachers were supported by the coach, but still lead the lessons. This allowed for more structured learning with an improved focus on lesson sequence. Teachers continued to lead sessions, but with the support of a specialist coach they could better adapt and support less able individuals.	become more skilled and will therefore be able to lead lessons of a higher quality in future. By supporting the less able individuals, we will be able to achieve a higher level of attainment in future and therefore may not require this suppo Next Steps:
this will increase the amount of activity children are having each day	Participation: We have continued to offer a good level of after school clubs. Theses have been attended by	Sustainability: All clubs will be attended by a teacher, this will help to improve their skill level.
	Attainment:	Next Steps:
See external agencies.	By offering a range of clubs the children can sample several different sports. This will raise their physical fitness and ability. This will be reflected in their assessment. Whole School Improvement: This is a great way to increase the amount of exercise all children are taking part in and therefore contributes to whole school Physical Literacy levels in TPAT assessment wheel. We have also placed a higher focus on PP and SEND children this year. Seeing an increase in the number of children attending from these groups. 76% PP children attended a club, up from 56% and 86% of SEND children attended a club.	We will continue to monitor the number of children attending and changes to the clubs on offer will be made if necessary.
		Sustainability:
school	By better assessing the children and understanding where they are in their learning and therefore what they need improve on, we can target intervention to support this. This will enable us to improve	The equipment we purchase will be used year after year, as we use the same assessment system each year this will allow us to continue to use the same equipment each year.

Swimming Data

Meeting National Curriculum requirements for swimming and water safety.

Priority should always be given to ensuring that pupils can perform safe self-rescue even if they do not fully meet the first two requirements of the National Curriculum programme of study

Question	Stats:	Further context Relative to local challenges
What percentage of your current Year 6 cohort can swim competently, confidently and proficiently over a distance of at least 25 metres?	86%	We had discussed the possibility of some of those children who have not reached the required level receiving extra support, however due to the amount of travel required and the time this takes out of the curriculum it was not possible for this year. We will explore this again next year.
What percentage of your current Year 6 cohort can use a range of strokes effectively [for example, front crawl, backstroke, and breaststroke]?	86%	The children are far stronger in front crawl, but we have seen good level of progress in this area and will continue to target a wider range of strokes in coming years.

What percentage of your current Year 6 cohort are able to perform safe self-rescue in different water-based situations?	80%	This has seen a good increase, a large number of children in this cohort attend the surf life saving club which has had a positive impact.
If your schools swimming data is below national expectation, you can choose to use the Primary PE and sport premium to provide additional top-up sessions for those pupils that did not meet National Curriculum requirements after the completion of core lessons. Have you done this?	No	As addressed above, we did not use the funding this year to target swimming due to the logistics of this.
Have you provided CPD to improve the knowledge and confidence of staff to be able to teach swimming and water safety?	No	As part of the fee for booking the pool, coaches are included therefore they are used to deliver the swimming teaching.
